

Boom AI Assessment

Verlon Salaysay

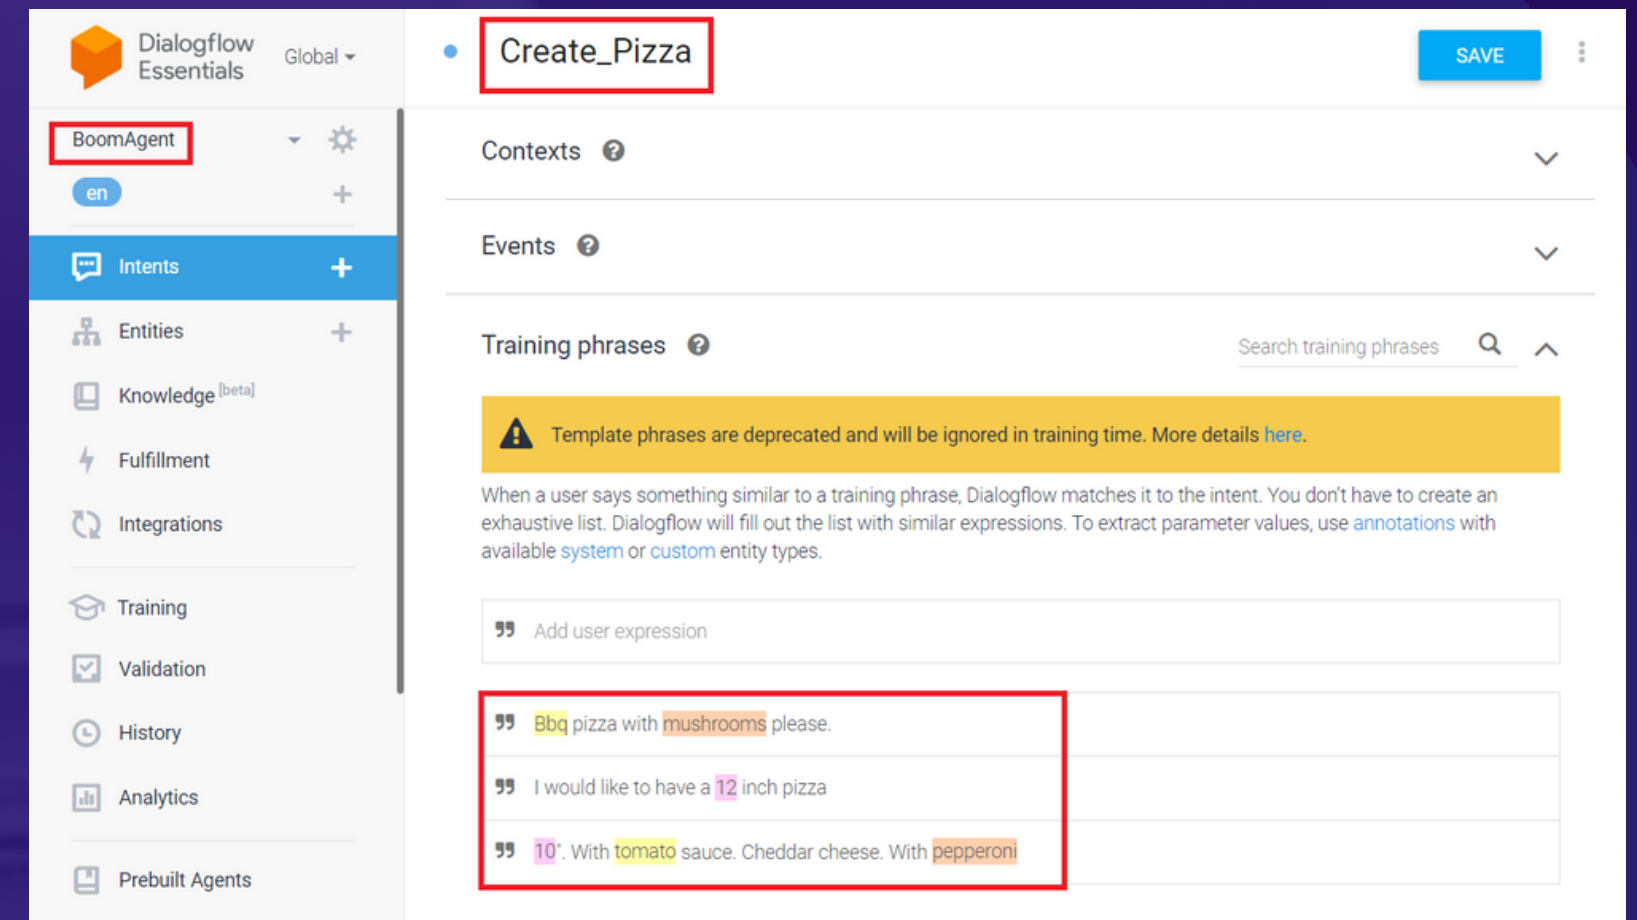

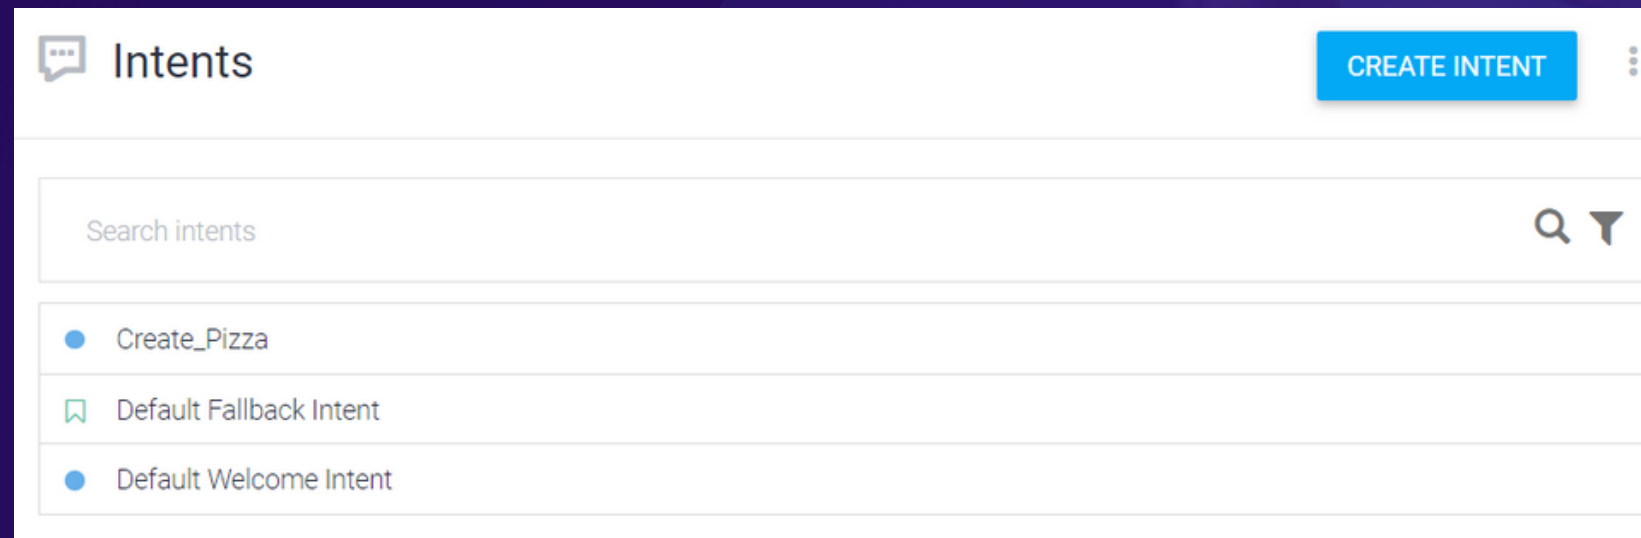

#5- Create a chatbot using Dialogflow by following this documentation. Output is a simple chatbot you can interact with. Below are the specifications:

- Build sample Dialogflow intents
- Build fulfillment webhook
- Build a chatbot UI/app
- Bonus points: Host it on a free AWS EC2/GCP VM/DigitalOcean Droplet

Solution Reference:

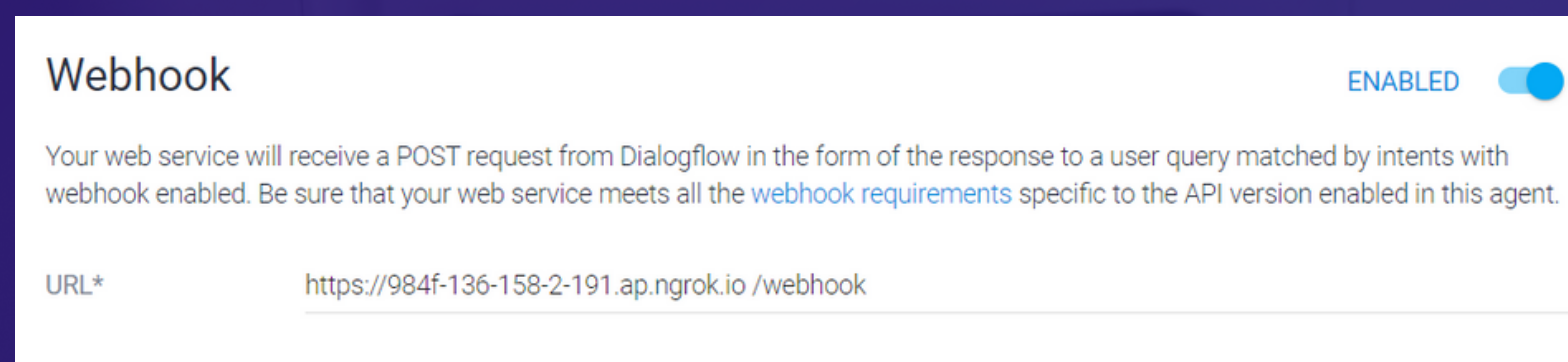

<https://github.com/verlonsalaysay/chatbot-git>

• Build sample Dialogflow intents

• Build fulfillment webhook
